EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan D. Miller on 10/23/09.

The application has been amended as follows:

Claim 1, step c): remove "at least"

Claim 1, step d): replace "comprises at least:" with
-- by using scoring function which combines at least: --

Claim 1, step d1): before "evaluating" insert -- average binding energy component obtained by --

Claim 1, step d2): before "evaluating" insert -- conformational entropy component obtained by--

Claim 1, step d2): after "ensemble" insert -- of modeled MHC/peptide complexes--

The following is an examiner's statement of reasons for allowance: Applicant's arguments are deemed persuasive. Examiner agrees that although the prior art does teach including entropy parameter into a binding scoring function for protein/ligand interactions, the prior art either does not calculate the entropy function for the entire ensemble of modeled protein/ligand complexes (e.g., Rognan, Bohm) or teaches insignificance or unpredictability of the use of the entropy term (Gohke).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (571) 272-0713. The examiner can normally be reached on 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marjorie Moran can be reached on (571) 272-0720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
